## Visual Dictionary

### Kamus Bergambar

# Picture Dictionary

This visual dictionary will help your students learn a great selection of words with clear pictures to help translate meaning. There is no English translation, but each picture has been carefully chosen to allow for comprehension.

It can be used in conjunction with an alphabet focus, perhaps giving out one letter page a week for students to learn and build a dictionary throughout the year. In F-2 when the vowel sounds, and for 'ch' c and trilled r, should be studied, these sheets can assist.

Complete booklets can be handed out at the beginning of the year to assist students, and the pictures can be coloured in as students learn and understand the corresponding word.

## To use:

You may choose to print on A4 as whole sheets, or select two sheets to a page (A5), or the option of booklet printing if you are wanting to print out complete A5 booklets.

White or a light coloured paper will allow for easier colouring of the pictures.

You may use this unit for personal use and in your classroom, however it is only licensed for one teacher. If you have multiple teachers, please purchase one copy per teacher.
